**Manager Profile**

Key Team Members	Mark D. Thomson Industry Experience 1989
	Stephen J. Arpin Industry Experience 1993
Firm Location	Toronto
Ownership	Independently owned
Founded	1967

**Strategy**

The mandate seeks a balance between high dividend income and capital appreciation by investing primarily in a diversified portfolio of blue-chip Canadian common stocks and, to a lesser extent, in high-yielding preferred shares and interest-bearing securities. The mandate may also invest in foreign issues up to a 30% limit at cost. The mandate aims to achieve this through the application of a highly disciplined value investing approach emphasizing capital preservation, and a focus on absolute return and risk. In selecting holdings, we rely exclusively on our own research. Beutel Goodman's highly disciplined value investing approach results in a mandate that performs defensively in volatile markets, while aiming to capture a significant portion of the market's upside. In addition, the mandate aims to deliver a yield greater than that of its benchmark.

**Historical Performance (Gross of Fees)**
